

# Department of Mechanical Engineering

## Fluid Machinery Laboratory

Fluid Machinery laboratory is well equipped with power producing & power absorbing devices for Mechanical Engineering students to conduct the test on the fluid machinery to study the performance characteristics like input power, output power, efficiency, head and discharge.

**Lab In-charge:** Er. Ved Raj Khullar

**Technical Staff:** Mr. Palwinder Singh

**Name of Apparatus:**

- Pelton Wheel Turbine Test Rig
- Francis Turbine Test Rig
- Centrifugal Pump Test Rig ( Series & Parallel)
- Centrifugal Pump Test Rig (Variable Speed)
