## Environment Education Programme
March 23-25, 2023

State Nodal Agency
Punjab State Council for Science & Technology

Organised by
DAV UNIVERSITY JALANDHAR
Empowering Students with 21st Century Skills

DAV UNIVERSITY

DAV University, Jalandhar traces its roots to the legacy that has been reforming and redefining India's educational scenario for 137 years. The University is the culmination of the movement that started with the foundation of the first DAV institute to propagate the ideals of the religious and social reformer Swami Dayanand Saraswati in Lahore on June 1, 1886. Presently, the DAV movement has grown to become the single largest non-governmental educational society in the country managing over 950 institutions and shaping the careers of youth in India. It employs over 50,000 people and educates more than 20 lakh students every year. DAV University is a multi- disciplinary institution, home to faculties of sciences, engineering, commerce, management, languages, Journalism & Mass Communication, Law & Legal Studies and physical education. The University paves the way for interdisciplinary study and believes that all areas of study can synergistically enrich each other. Since DAV University aims academic excellence, its curriculum conforms to that of the world's very best universities. In continuation of its efforts in strengthening academics and research, the University has now implemented the National Education Policy (NEP-2020) in all the programmes. This institution is set to become a global hub in education, research and placement of the students.

CAPACITY BUILDING WORKSHOP
ON
SUSTAINABLE DEVELOPMENT
23-25 March, 2023

The workshop aims to create awareness about various waste management techniques. The resource persons from relevant fields are invited to impart knowledge about these techniques to lend first hand experience. This workshop will give an opportunity to young learners to develop relevant technologies/measures using their innovative ideas and empower them to take a responsible role in the society to solve daily life problems and also to inculcate capacity to provide practical solutions for the waste management.
