Report:

The seminar titled "Gender, Power, and Harassment: Unpacking the Dynamics" was held on 16th February, 2023 for students, focusing on the complex interplay between gender roles, power structures, and harassment in various societal settings. Speakers explained how power dynamics often contribute to gender-based harassment in workplaces, academia, and public spaces. The event opened with an introduction to basic concepts of gender and power, followed by discussions on how these factors influence individuals' experiences of harassment. Case studies were presented, illustrating real-life examples of gender inequality and the impact of societal norms. An interactive Q&A session allowed students to engage with the speakers, raising critical questions about preventing harassment and promoting gender equality. The seminar concluded with actionable strategies for recognizing, confronting, and dismantling the power imbalances that perpetuate harassment, leaving students with a deeper understanding of the issue and its broader social implications.
