These rates have got worse when the world hit with the pandemic. Through her rich experience of counseling the patients at Bolster Rehabilitation Centre, Jalandhar; she mentioned that drug addiction has ruined many families but through counseling, willpower, and a positive attitude recovery is possible and many patients move out of the centre and recover back into their normal lives. The theme was more deeply probed by the insights of practicing Psychiatrist, Dr. Gurjot Singh that focused upon the addiction as a disease and the various etiological factors behind it.

**Interactive Session and Personal Accounts:** It was an interactive session where the students of the department asked questions from the various experts and also shared their views as in their experiences while counselling the patients in rehabilitation during their internship visits. Some recovered patients shared their life reforming incidents mentioning how they got into drugs and how their families, rehabilitation team and their willpower got them out of the vicious cycle that drained their families psychologically, emotionally, and socially. The event concluded with a pledge that there has to be awareness against drug abuse where every member of society in collaboration with administration and rehabilitation teams must talk about this matter, understand it, and take a moral responsibility to save lives.
